Language: English

Physical description: 1.4 m. printed material
52 posters

Custodial history

Items comprising the Exhibition Place Printed Material collection have arrived at the Archives from a variety of sources over the course of a number of years, through assorted donations and purchases. When known, accession numbers and related information have been provided.

Scope and content

The Exhibition Place Printed Material collection is an amalgamation from many sources, brought together from stray materials, through culling projects and from subsequent acquisitions. This artificial collection was created to make these materials accessible to researchers and staff, as previously they were scattered and unrecorded.

The Collection is comprised of 4 series based on format: Exhibition Place General Printed Material, Exhibition Place Newsletters, Exhibition Place Posters, and Sports Programmes. Within the General Printed Material and Newsletters series, items are catalogued at the file level and are arranged chronologically. The Posters series is catalogued at the item level and are arranged chronologically. The Sports Programmes series is catalogued at the file level and arranged alphabetically by subject, then chronologically.
